Hot Stamping Foil

Color Chart/Catalogue: Free
 Standard Roll Size: W 640mm*L 120m
 Min. Order Quantity: 50 rolls
 Supply Ability: 2,000,000 rolls/year
 Delivery Lead: 15 days a 20 feet container
 Port: Xiamen, Shanghai

Product Information

Country: China
 Material: Polyester Film
 Standard Roll Weight: 1.60kgs (640mm*120m)
 More Roll Measure: W 1280mm*L 240m/305m/360m/480m/600m/700m/720m
 Usage: Bookbinding, packaging, food packing
 Applications: Paper, UV coated surface, laminations, leather, fibre, or textile
 Jumbo Roll: Available, up to 24,000m long

Brand: AFP
 Technology: vacuum aluminum metallic
 Tailer-made Measure: Available
 Core: 1" (25.4mm), 3" (76mm), 6" (152mm)
 Stamping Machines: Platen, cylinder, rotary

Product Introduction

Hot Stamping Foil is a type of film for creating a decorated sheet which has been widely used on packages and prints to enhance the visual appeal by giving a sense of prestige, luxury and elegance.

Based on customer's needs, hot stamping foil color can be various, such as blue, red, or green, but majors in gold and silver. It has been widely used on paper, plastic, leather, fabric, glass or other material.

With a pressing process on the color layer, hot stamping foil joints in grating structures and hologram pattern, which causes diffraction, reflects rainbow spectrums and provides an anti-duplicate result.

We offer a complete line of foils, from various metallic colors to different holographic patterns that support stamping on different substrate.

General Product Parameter

Hot Stamping Foil for Paper/Leather/Textile/Fabrics/Plastics

- Gold, silver and colorful foils
- Excellent application to all kinds of paper no matter which is coated or with smooth surface
- Stamped to embossing or textured surface
- Outstanding performance at heat-endurance and scratch-resistance
- Much higher glossy
- Suitable for high-speed auto stamping machine
- Stamping Temperature

Platen @ 80°C - 105°C/ 176°F - 221°F

Cylinder @ 120°C - 180°C/ 248°F - 356°F

Rotary @ 170°C - 230°C/ 338°F - 446°F

Our Hot Stamping Foil is Used in Wide Demand

Applicability	Materials	Stamping Machine
-Book binding	-Various paper and board	-Platen
-Packaging	-BOPP Lamination	-Cylinder
-Plastic products	-UV coated surface	-Rotary
-Security foil	-Leather or imitation leather	
-Food packing	-Plastic fibre or textile	
-Overprintability

			-Image foil

Packaging & Storage Condition

- *Packaging: Each foil is put into one plastic bag, 10rolls/carton
- *Standard roll size: 640mm*120m (1.60kgs/roll, 34*14*65cm/ctn)
- *Other standard size: 640mm X 240m/360m/480m/600m/720m (or 1280mm X 180m)
- *Special size: 3 inch core; (customized foil length and width is available)
- *Storage: Protect against pressure, moisture, heat and sunlight
- *Shelf life: 2 years

FAQ

About Samples

- * Samples for testing are available and free
- * the freight for sample delivery is at receiver's side
- * but to be refunded by deducting from the right coming order automatically
- * for saving the cost, we recommend the way of prepaid instead of collect

About Operation

- * Suitable for high-speed auto stamping machine
- * Stamping Temperature
- Platen @80°C - 105°C/ 176°F - 221°F
- Cylinder @120°C - 180°C/ 248°F - 356°F
- Rotary @170°C - 230°C/ 338°F - 446°F
